## CENTRAL INTELLIGENCE GROUP

4. Another source reports that the Russians have recently shown renewed interest in former Ambassador Nadolny. After about four months of silence on the part of the Russians, Nadolny was invited to Karlshorst, probably by members of the Political Department, on or about 18 December 1946. In addition to tendering such personal favors as providing special protection for Nadolny's house in Gransee, the Russians have asked Nadolny to make suggestions to them as to how his good offices could be employed in improving the general political attitude of the non-Marxist parties throughout Germany to the USSR.
